MAIL STOP: AMENDMENT  
COMMISSIONER FOR PATENTS  
P.O. BOX 1450  
ALEXANDRIA, VA 22313-1450

Sir:

**COMBINED AMENDMENT AND REQUEST  
FOR DRAWING CHANGE APPROVAL AFTER  
FINAL REJECTION UNDER 37 CFR 1.116**

In response to the Official Action currently outstanding with regard to the above-identified case which Official Action the Examiner has designated as being FINAL, Applicants respectfully request that the following Request for Drawing Change Approval be granted and that the following Amendment be entered so as to place this application in condition for allowance, or at least in better form for Appeal, pursuant to 37 CFR 1.116.

**REQUEST FOR DRAWING CHANGE APPROVAL**

Applicants respectfully request that in response to this communication the Examiner approve the change in Figure 9 of this application shown in red on the attached photocopy of that Figure of the drawings of this application. Specifically, Applicants respectfully request the Examiner approve the attached amendment to Figure 9 that corrects the boundary intended for the quantity "p3" shown therein by completing the reference line midway between the lines 13 and 14, deleting the extension of the line 14 and changing the length of the double arrow. Support for this change to the drawings is found at Page 34, line 9 to Page 35, line 3 of the present specification wherein it is stated that the first recording layer 13 is located at an optical thickness  $p3 - \Delta p$  from the surface of the light transmitting layer and that the second recording layer 14 is located at an optical thickness  $p3 + \Delta p$  from the surface of the light transmitting layer analogously to the boundaries depicted for the quantity p3 in Figure 13.

In anticipation of the Examiner's approval of this request, Applicants concurrently herewith are submitting new formal drawings for this application incorporating the changes noted above. Acceptance and entry of those new formal drawings into this application also is respectfully requested.
